

CORPORATE PRESENTATION

www.mecanizadosesteban.com

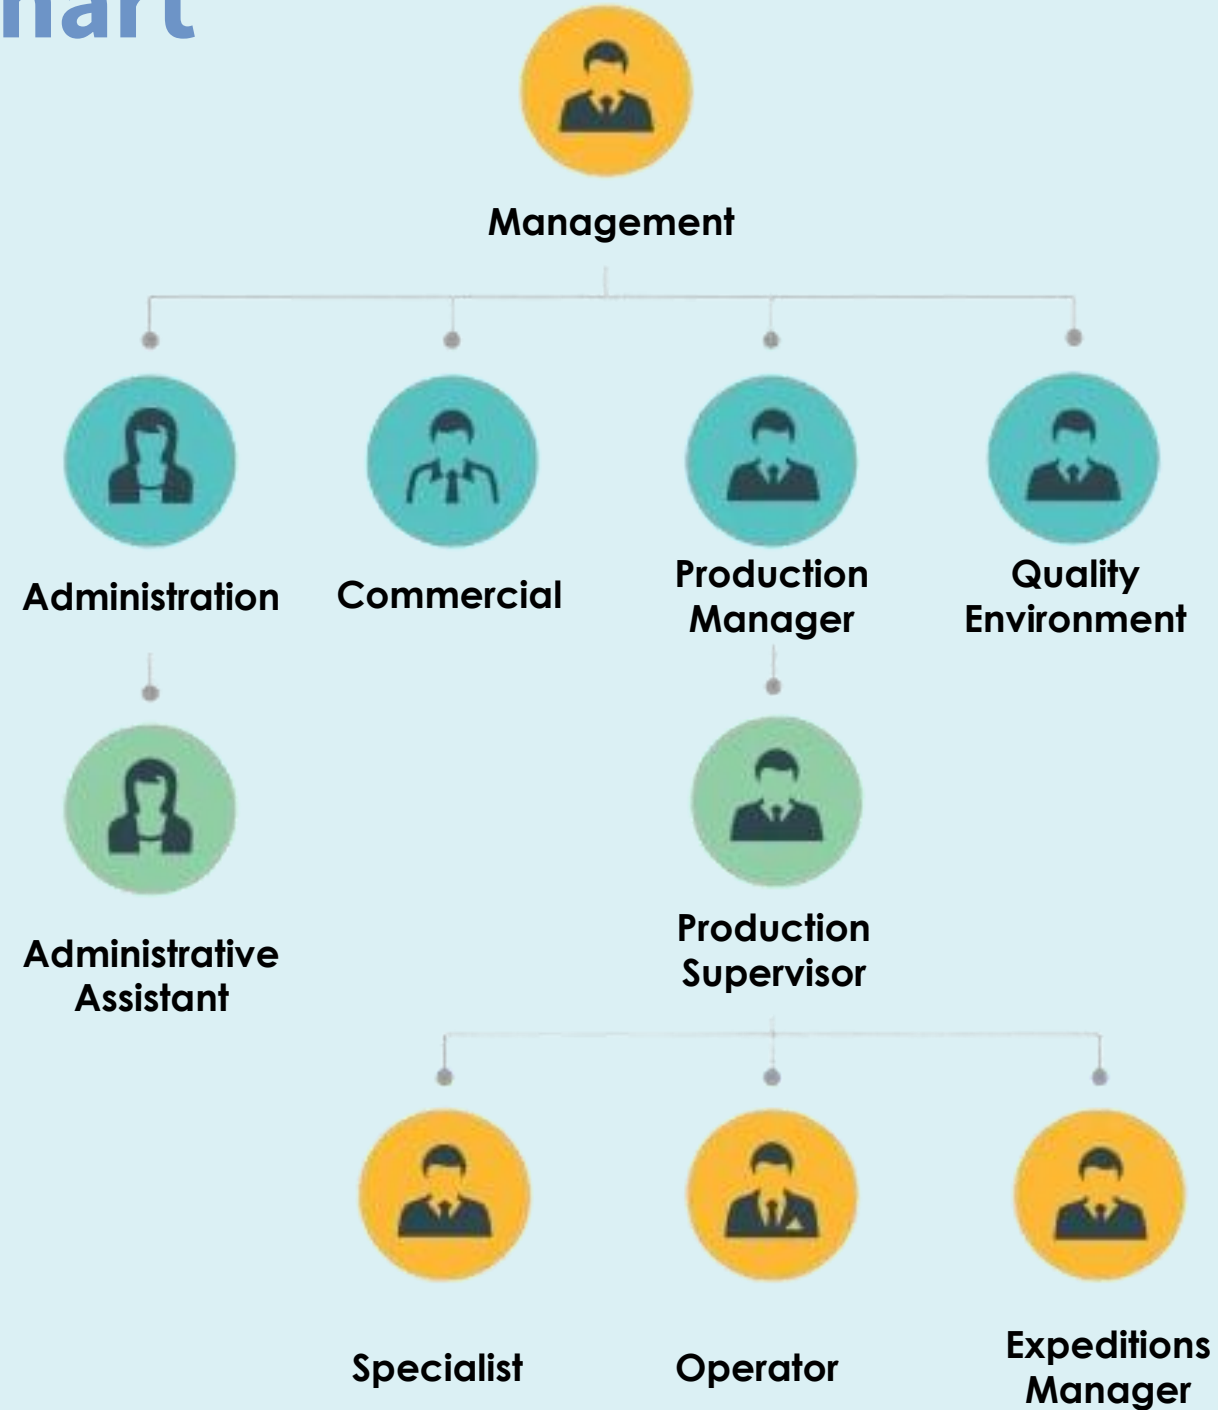

Leaders in Screw Machining and Precision Machining

Our family-owned company, with 35 years of experience, specializes in the manufacturing of high-quality parts through screw machining and precision machining processes. We focus on meeting market needs with expertise, quality, and innovation.

Our goal is to enhance the competitiveness and flexibility of our clients.

Organizational Chart

Diversity of Served Sectors

Nautical Sector

We manufacture precision components for vessels and marine equipment.

Industrial Refrigeration

We produce durable parts for industrial refrigeration systems.

Automobile

We create essential components for the automotive industry.

Prominent Clients

Commitment to Quality

1 Rigorous Specifications

We meticulously follow our clients' requirements in every project.

2 Improvement Proposals

We offer innovative technical solutions to optimize final products.

3 Process Optimization

We apply advanced techniques to maximize efficiency in production.

Quality Certifications

ISO 14001:2015

Certification that guarantees our commitment to responsible environmental management.

ISO 9001:2015

Accreditation that validates our world-class quality management system.

Manufacturing Process

1

Design

We collaborate with the client to develop precise and functional designs.

2

Prototyping

We create prototypes to validate the design before mass production.

3

Manufacturing

We use cutting-edge technology to produce high-quality components.

4

Quality Control

We rigorously inspect each piece to ensure excellence.

Ventajas Competitivas

1

Family Experience

35 years of accumulated knowledge and passion for screw machining.

2

Constant Innovation

Continuous investment in advanced technology and production methods.

3

Flexibility

Rapid adaptation to the changing needs of our clients.

4

Certified Quality

Backed by international certifications in quality and environmental management.

Commitment to the Future
